

Greenfield Architects & Planners, established in 1987 in Chicago, is a multidisciplinary architecture and urban planning firm known for its sustainable and innovative design solutions.

The firm specializes in commercial developments, residential projects, public infrastructure, and eco-friendly urban planning initiatives.

Over the years, Greenfield has designed award-winning projects across the United States and internationally, serving clients in real estate, hospitality, and government sectors.

The firm's vision is to create functional, aesthetic, and environmentally responsible spaces that enrich communities and inspire future generations.
